

I have spent most of my life in Colorado, I enjoy every aspect of the outdoors, from hiking, fishing, hunting and flat out exploring. Hunting has always been a passion of mine and I love nothing more than sharing a successful hunting experience with others. Growing up in Southwest Colorado has offered me the opportunity to not only personally hunt big game such as deer, elk, antelope, bear, mountain lion, turkey but to also assist friends and family in these types of hunts as well. I am a husband and father of two amazing kids, who also enjoy hunting and spending time outdoors! I am always up for an adventure and enjoy sharing those adventures with others! I am previous EMT and Firefighter. My enjoyment for all things hunting has also lead to my newest found hobby in taxidermy work.
